The Most Extraordinary Fox Chase On Record.

JOHN T. DITTO'S FOX STORY

Queen is What Her Name Implies.

SHE GUARDED THE BURROW.

A Hound on The Track Continuously For 36 Hours.

The greatest fox chase that there is any authentic record took place in the neighborhood of Long Branch, in Meade county, last week.

Ben Matthews, a colored man living at Long Branch has a fox hound named Queen. One evening last week, when the air was soft, Queen and her companion, Jim, together with Ben Matthews, started on "Old Mate" started for the hills near by and were not long absent when they started a vigorous hunt.

By their vigorous hunting it was known that they had a warm scent and were on the trail of a fox of fine staying qualities.

For several hours during the night the residents of that vicinity could hear all three hounds howling together and then the two male dogs dropped out of the run, leaving Queen to keep up the chase alone.

All night long she followed the trail and along toward morning was joined by some fresh hounds who stayed with her for a few hours, left out, noted up and joined in the chase again at intervals during the next twenty hours.

On the second day of the chase Will Matthews, "Tige," a hound noted for its staying qualities joined her and remained until the close of the run.

Queen was on the run, without rest, the entire 36 hours continuous in the chase. She stopped only when she had run beyond cover. After she had accomplished this she lay down and guarded the burrow and when found by her owner was so stiff and sore that she could not move a limb and had to be carried to the house.

Matthews, her owner, thinks she is the best fox hound on earth and would not trade her for the best horse in Kentucky.

He says the reason her mate, Don, did not stay in the race until the finish was because he had been caught in a steel trap a few days before and had one toe lopped off. Even in this crippled condition he stayed in for hours and gave up when the wound opened afresh and the pain prevented him from running.

This story is vouched for by John T. Ditto, who is known as an enthusiastic and truthful fox hunter.

Past Perry, of Columbus, Ga., and others aged thirty years, and then cured his Piles by using DeWitt's Witch Hazel Salve. It heals itching and skin diseases like magic.—Short & Hays.

A LITTLE SUFFERER.

Faces, Hands and Arms Covered With Scrofulous Humors—A Cure Was Effected.

"When five years old my little boy had scrofula on his face, hands and arms. It was worse on his chin, although the sores on his cheeks and hands were very bad. It appeared in the form of red pimples which would fester, break open and run and then scab over. After disappearing they would break out again. They caused intense itching and the little sufferer had to be watched continually to keep him from scratching the sores. We became greatly alarmed at this condition. My wife's mother had had scrofula and the only medicine which had helped her was Hood's Sarsaparilla. We decided to give it to our boy and we noted an improvement in his case very soon. After giving him four bottles of Hood's Sarsaparilla the sores had all been driven out of his blood and it has never since returned." WILLIAM BAXTER, 414 South Williams St., South Bend, Indiana.

You can buy Hood's Sarsaparilla at all druggists. Be sure to get just Hood's.

Telephone Men Galore in Town This Week.

THE HARRISON TOLL LINE.

Ohio Valley to Meet the Cumberland.

CONSTRUCTION WILL SOON BEGIN

Three Companies Looking the Local Field Over.

Judging from present indications Cloverport is to be a great talking center. The representatives of three different concerns were in the city this week looking the field over.

The Ohio Valley Telephone Company has leased office rooms over the Breckinridge Bank for a period of ten years, and will establish the headquarters for the local exchange there.

J. T. Featherstone, superintendent of construction, was here Monday making measurements for the cables and preparing for the work of installing the system. He says that Cloverport will be provided with a switchboard with one hundred drops, and the local system will embrace all the latest improvements with metal circuit and long distance communication over copper wires.

Manager Acker, of the Harrison Telephone company, came up from Owensboro, Monday, and made arrangements to put in a fine long distance telephone service. It will be operated as a toll line and will be provided with modern equipment.

Manager Boardman, of the Cumberland Valley Telephone company, with headquarters at Owensboro, was in town yesterday. The Cumberland lines are already completed to a point within four miles of town, and from here the Valley company will build to the Hancock county line to meet the Cumberland line. The material for construction is now being shipped here from Louisville.

Fordville has three incorporated telephone companies, the Express, the Fordville Telephone company, was incorporated. About three months ago the Ohio County Telephone company saw the light of day, and this week the Fordville Telephone company was organized and will be incorporated and capitalized at \$10,000. The line will be a metallic circuit and the very best of service in every particular. It will parallel the Cumberland line and will connect with the Owensboro Harrison company at Fordville. Arrangements will also be made to connect with both the Fordville and Hartford and Fordville and Glendenside lines so that messages can be sent from Glendenside and all stations on the line, and from Hartford and all stations between there and Fordville. Arrangements are being made to build a line to Owensboro at once.

One Family That Believes in Good Reading.

Says the Gaston correspondent: Here is the kind of 16 to 1 people I like to see. I visited a family in Meade county the other day and saw the light of day and this week the Fordville Harrison company was organized and will be incorporated and capitalized at \$10,000. The line will be a metallic circuit and the very best of service in every particular. It will parallel the Cumberland line and will connect with the Owensboro Harrison company at Fordville. Arrangements will also be made to connect with both the Fordville and Hartford and Fordville and Glendenside lines so that messages can be sent from Glendenside and all stations on the line, and from Hartford and all stations between there and Fordville. HE WAS A PEACH.

Looked Like an Unsupervised Country Boy.

WAS A CRACK-A-JACK FORGER.

Had Three Bad Checks for \$55.00 Each.

SUCCEEDED IN PASSING ONE.

Frank Fraze Was the Victim of His Wiles.

He looked like an unsupervised country youth. His clothes were old and shabby, and his exposure to the elements had made his overcoat look like Joseph's coat of biblical fame—it was one of many colors.

He had a stolid countenance, and appeared to have been raised in the innermost depths of the wilds of Pinchbeck, but as Fred D'Huy said: "That boy would fool you."

On Thursday, a youngster, apparently about eighteen years of age, appeared at The Fairland purchased about \$150 worth of goods. He tendered Manager Carl's check calling for \$55, and asked that it be cashed and the value of the goods be deducted therefrom.

The check was drawn on the Hancock Deposit Bank, of Haverhill, and purported to have been given by Captain S. B. Baker, of Patesville, in favor of Henry S. Ball.

Mr. Carl became suspicious and refused to cash the check. The deal was off.

The boy next called on Ernest C. Baber, and offered him fifty cents to cash a check for \$55, but Ernest was fussy and said: "Say, man, Pauline."

He then went to the bank and offered the check for payment. Cashier Skillien questioned the boy closely. He saw that the check was in payment for services he had rendered Captain Baker and also for cattle he had sold the latter. He said he lived within three miles of Mr. Baker and told Pauline a tale that caused the officials finally cashed the check.

The youth then went to F. N. D'Huy's, where he bought a \$38 gold watch, and offered another check for \$55. It was drawn on the same parties, and was identical the same as the first check.

Mr. D'Huy took the check to the bank to see if it was good, and the cashier's officials to believe that something was rotten in Denmark, and they went to the boy and took the \$55 in cash that had been paid up as the check by the bank away from him.

Mr. D'Huy's deal was off. The youth still had another check for \$35 on his person, and he went over to F. Fraze's, where he purchased \$7 worth of merchandise, presented the check in payment and received \$18 in change.

He then skipped out. He was a great one for him and it is understood that detective Hicks will have him located and will have him under arrest in twenty-four hours have passed.

Captain J. J. Elmore, whose name was forged to the check, was in the city yesterday on his way home from Ballard county, and in an interview with the News said that the checks were forgeries. He does not know the forger from the description given.

It is rumored that the youth tried to pass the checks in Fordville the same day he operated here, but was unsuccessful.

President Praises a Well-Known Educator.

Says the Gaston correspondent: Here is a great compliment to Mr. W. T. Lopp, formerly of Harrison county, Ind., but who is at present and has been for the past 10 or 15 years teaching school in Meade county. He was employed by the Meade county school board.

It will be remembered that Mr. Lopp gave an entertainment and lecture here in Gaston, a kind of magic lantern show representing scenes in Alaska and Greenland. He is a brother to Mrs. Baxter, wife of Dr. A. A. Baxter, of this place. Well here comes the compliment and honor from the President himself in his message to Congress, and is in part as follows: "The hardships and perils encountered by the members of the overland expedition in their great journey through an almost uncharted region, a barren waste of ice and snow, facing death itself every day for nearly four months over a route never before traveled by man, and with no relief, but at the end of the journey carrying relief and cheer to 275 distressed citizens of our country, all make another glorious page in the history of American heroism." The President concludes by asking the thanks of Congress to the officers and men of the party with gold medals of honor to those of the overland expedition and \$2,500 for the bodies of the two who died.

It is rumored that the youth tried to pass the checks in Fordville the same day he operated here, but was unsuccessful.

THE MODERN SAMSON.
Ex-Kentuck ENLOW, of the Dispatch, was undoubtedly aware of the fact that that paper would be a losing venture for its stockholders months ago. It is now he was to move in his credit for him to be warned them than it is now. Enlow has not been treated well by Carter. The latter was Enlow's father and clipped off his neck of power. Enlow now carries the role of Samson and is endeavoring to pull down the pillars that support the Dispatch even though he is buried in the ruins.

Good Blood!

Your heart beats over one hundred thousand times each day. One hundred thousand supplies of good or bad blood to your brain. Which is it?

If bad, impure blood, then your brain aches. You are troubled with drowsiness, yet cannot sleep as at night. You have no nerve power. Your food does you but little good.

Stimulants, tonics, headache powders, cannot cure you; but

THEIR LIGHTS ARE OUT.
A DEEDITION against the ratification of the peace treaty has been signed by Grover Cleveland and John G. Carlisle. The Courier-Journal refers to them as "distinguished" signers. The plain common people speak of them as the "extinguished" signers.

WHAT WE'LL DO.
The London Outlook says: "For the United States to leave the Philippines direct now would be to let hell loose upon the world." The Outlook should not allow its fans to get the best of it. Enloe Sam will hold the islands if he is compelled to raise Cain on them.

THE BEST CURFEW LAW.
The Lexington (Mo.) Intelligencer says: "The best curfew ordinance is one that is adopted in each family, where the 'old man' acts as Mayor and City Council, night watch and calaboose keeper; where fine and punishment go together."

A RITIDITION.
JUDGE BARKER, of the Louisville circuit court, has instructed the grand jury to look for corruption in high and low places in Louisville's official circles. In this case, as in the past, the chances are that the grand jury will use the little end of the telescope in pursuing its investigations and it will also keep a tubful of water handy.

LET'S HUSTLE.
CLOVERPORT has an untiring supply of natural gas and has other natural advantages that would go toward making her a great manufacturing center. Now that money is becoming cheaper and there is a growing tendency to invest in industrial plants it is high time for this city to put her best foot forward and try and secure the location of manufacturing plants. To make it an inducement for capitalists to investigate our advantages we should offer them aid and counsel from taxation.

GOOD ADVICE.
The Filipino insurgents attacked Manila Friday, hoping to surprise the American troops. Our boys were on the alert and gave the insurgents a hot reception. Fifty-four of our men were killed and it is known that there was a great slaughter of the Filipinos. Aguinaldo's treachery will cost him dear. He has forfeited every claim to the independence of the islands. The attack on the American troops by his followers at this time shows that they are incapable of self-control and if turned loose would develop into anarchy and would be a menace to the peace of the world. If, as the Louisville Times says, Rudyard Kipling's term of "that devil and half devil" applies to the Filipinos, the thing for Uncle Sam to do is to first knock the devil out of them and raise up the child in the way it should go.

WEALTH OF A NEW SENATOR.
W. A. CLARK, Senator-elect from Montana, is worth \$300,000.00. Taking into account all the various business interests with which he has a connection, he probably stands, with his own wealth, surrounded by \$100,000.00 of capital. His copper mine in Idaho, Montana and Arizona are most extensive, and at this time are worth about 200 per cent more than they were a year ago. He is said to have the ambition of being known as the "copper king" of the country. He is not an orator nor a bookish man. He comes into the Senate as another type of the era of business men legislators. It has been frequently said that his real reason for seeking the Senate ever since 1889 has been due to a desire to gratify his father, who are rarely seen in battle, but live in the East.

If it were old Breckinridge county I'd skip through Louisville and hit me to Cincinnati. Louisville should patronize home products, if not make her feel it by taking your custom elsewhere.

My cousin Senator George, H. Alexander, of Louisville, the widely known Democrat and member of the State Senate, is out as a candidate for railroad Commissioner. George was popular in the Senate and was sent there by a handsome majority. He was a Goebel man. He seems to be a leading candidate just now. His father, cousin Ludwell Alexander was an officer in the U. S. army.

In no other part of the world is kissing an animal in vogue as in Russia. From time immemorial it has been the national salute and it is more of a greeting than a crime. In public affairs as in private the kissing is an established custom. The matrimonial bond in high circles is made of uninterrupted fidelity. Now what I want to know is why Hobson didn't locate permanently under the Czar's flag.

Mrs. Calvin Brice "old clothes sale," or, Mrs. or Miss—anybody else whose wealth is represented by six dresses—can sell their old clothes on account of going into mourning. But think of an ordinary, every-day mortal selling out his or her wardrobe! Such mortals give them away to their "poor kin," or sell them clandestinely or surreptitiously. There is a good deal in a name, too, as well as in doing.

This is called "between seasons" and shoppers are following the alluring web of "marked down," "cheap," "great" and "must have" has great fascination for women. To find bargains is quite creditable and the "remnant counter" has many charms for feminine

It has been reported that A. D. Ashcraft is having a house and barn partly sawed. What do you suppose it means?

The pound party at W. H. Ashcraft's was a grand success, Saturday night. There was a large crowd and plenty of good things to eat. We hope in the near future to attend another like it.

An Honest Medicine for La Grippe.

George W. Wait of South Georgia, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one 50-cent bottle and the chills, cold and grip have all left me. I congratulate the manufacturer of an honest medicine." For sale by A. R. Fisher, Cloverport; R. A. Shellman, Stephentown.

When the Queen Travels.

The Queen, when she leaves Windsor for Balmoral, is provided with about a dozen copies of a sort of waybill of her journey, which contains a list of all the people in her train, and the compartments in which they ride, a complete time table of the whole journey, and the explanation of the gradients, etc., printed in purple on silk. A further edition is distributed among the Queen's attendants and the railway officials.

Dr. Bull's Cough Syrup is a grand old remedy, and for many years, and is sold in all the best drug stores. It is a safe and reliable remedy for all pulmonary affections. It always cures. All drug stores sell it for 25c.

The Zinc City.

Every home and household ideal that can be made of zinc in the town of Havana situated on the coast of Portugal, East Africa. Even when a man lies down through the heat in the streets he is carried to the nearest lounge on a zinc stretcher, and the hospital itself, and the beds and everything else within it are made of the same metal—zinc.

Again, when any man is laid out in a zinc coffin, which rests on zinc settees, and it is placed on a zinc carriage and carried to a zinc church, and then buried in a zinc lined grave, if the deceased can afford the latter luxury.

The reason is that zinc is the cheapest material that will withstand the humid climate for any time.

SAVED OUR LIFE.

Do Not Neglect the Kidneys and Bladder.

Disorder of these important organs causes Bright's disease, rheumatism, pain in the back, dropsy and other troubles. Disease sometimes goes on for years, and the kidneys and bladder before you realize that anything serious is the matter. Often these organs are neglected until that awful malady, Bright's disease, has fastened upon you, and death awaits the victim. Many miraculous cures have been wrought by a course of treatment with Dr. Davis' Kidney Tablets. These tablets are put up in the shape of a kidney bean, and the formula has been prepared by the best physician of modern times to be the most direct in action on the kidneys of any remedy known to medical science. You can eat these tablets as you would candy. Send for free booklet on kidney diseases. Sold by all druggists, or sent on receipt of price 50 cents and B.

To Relieve Choking.

"Holding the left arm as high as you can will relieve choking much more rapidly than by being thumped in the back," explained a well-known resident of Georgetown to a Washington reporter. "And it is well that every one should know it, for often a person gets choked while eating when there is no one near to thump him. Very frequently at meals and when they are at play children get choked while eating, and the customary manner of relieving them is to slap them sharply on the back. The effect of this is to irritate the diaphragm, so that it can be swallowed. The same thing can be brought about by raising the left hand of the child as high as possible, and the result comes much more rapidly."

Miracles of a Graphophone.

One of the wonders of the old century is the home Graphophone, that will reproduce any kind of music, or any sound. One can arrange a full program of the most attractive band, orchestral or vocal music and vary it every evening. On the Graphophone one can record the human voice or any sound, and reproduce it at once. You can keep the voice of your friends to be heard whenever you wish. Graphophones made for home entertainment can be bought as low as \$10. Write for catalogues to the Columbia Phonograph Co., No. 419 Pennsylvania Ave., Washington, D. C.

The Rum Microbe.

Milk drinkers having been scared sufficiently, the bacteriologists have turned upon the rum drinkers. Rum often has a disease known to the trade as "faulness." This is due to a microbe known as strictly speaking, does not flourish in alcohol, but in its own gelatinous envelope, through the walls of which it can obtain its necessary supplies of food in the form of sugar while keeping out the enemy, alcohol. The rum microbe has been named provisionally "Oleothrix methylica." It has been injected into a guinea pig, with no apparent harm to the guinea pig—London Lancet.

COL. GREEN'S PROTEGE.

Samuel Major Served With Honor During the War

He Figured Prominently in the Battle of Santiago.

Cadet Samuel I. Major, who graduated from Annapolis Naval academy last Saturday, is a Kentucky boy with a record of which he is proud. During the war with Spain he was for twenty-four hours without sleep, being in command of the steam launch that landed the troops at Baiquiri when that place was attacked.

He was born at Frankfort, Ky., being the only child of the late Col. S. I. M. Major of the Kentucky Yeoman. He attended private schools at Frankfort. For several years he lived with his uncle Col. Lafayette Green, at Falls of Rough, Ky.

Cadet Major was appointed to the Annapolis Naval academy from the fourth congressional district by Hon. J. W. Lewis, and entered the academy Sept. 20, 1905. He passed the first three years successfully and made two cruises to Madrid in the sailing ship Monongahela. One was during the summer of 1907, and the other during the summer of 1908.

When war broke out between Spain and the United States he was ordered to duty aboard the United States ship New York. He went to Tampa and attended there for several weeks.

He assisted in fitting out the transports. He participated in the attack on the city of Manila, and at the last battle his fighting powers were taxed to their utmost capacity, but he remained at his post until the transportation of troops was finished.

He reported for duty on board the New York one week before the sinking of Carver's ship, and took part in that action. He was junior officer of the ship. He was on board the New York during the naval battle of New York harbor, and was then ordered home on leave. He has been assigned to duty on the New York.

Don't irritate your lungs with a stubborn cough when a pleasant and effective remedy is at hand. In Dr. R. L. LARSEN'S HOREHOUND SYRUP. Price 25 cents and 50 cents.—A. R. Fisher.

The Shawl Retaining.

There is every indication that before the next new skirt pattern comes out there will be no more honored article of wearing apparel than the shawl. For a good reason of instruction the shawl has hidden its diminished size and fringe in the wardrobe of elderly ladies. Without the least warning it has now become exceedingly modish. Exquisite crepe silk squares with fringed edges and colored borders in Persian pattern are an essential part of the evening toilet.

At home in the afternoon women wear exquisite imported Japanese shawls of mingled wool and silk in pigeon throat purple, or white and pine leaf green plaid like caps on either shoulder.

Grip's Ravages Doomed.

So much misery and so many deaths have been caused by the grip, that every one should know what a wonderful remedy for this malady is found in Dr. King's New Discovery. That distressing Stomach Cough, that inflames your throat, robs you of sleep, weakens your system and causes the way for Consumption is quickly stopped by this matchless cure. If you have chills and fever, pain in the back of the head, soreness in bones and muscles, sore throat and that cough that grips your throat like a vice, you need Dr. King's New Discovery to cure your Grip, and prevent Pneumonia or Consumption. Price 50c. and \$1.00. Must be kept in stock. A trial bottle free at Short & Haynes.

Common Symptoms.

"I think I am in love with that girl. When she came around I get three new diseases."

"What are they?"

"Palpitation of the heart, ossification of the head and paralysis of the tongue."

To insure a happy new year, keep the liver clear, and the body vigorous by using Dr. Williams' Little Early Risers, the famous little pills for constipation and liver troubles.—Short & Haynes.

A POLITICAL VIEW.

EDITOR BRECKENRIDGE NEWS:—Down in this "Neck of Woods" the conclusion has been reached by any candidate for Governor of Kentucky who attempts to carry the following lead will not only "break his back" but he will be defeated in the race.

FIRST—The advocacy of the Chicago Platform of 1896 in its entirety.

SECOND—The advocacy of the Gobel Election Law.

THIRD—The advocacy of the renomination of Wm. Jennings Bryan for the presidency of the United States in 1900.

Now hold on—let us illustrate.

We all know in the science of Mechanics that with the machinery and ropes in one's hands the advantage is manifold.

On the same principle in the science of politics the "fellows" in power under said law, have a powerful leverage to count the other "fellows" out. And as counting-out is a good deal the order of the day with both sides, it will assuredly be done unless a strict surveillance is kept by the "Outs."

The writer will say that any candidate advocating those three propositions will lose ten per cent of the best democratic vote of Kentucky. Why?

What defeated the Democratic party of Kentucky in 1895? Echo answers that the gubernatorial candidate refused to stand on the financial platform adopted by the Louisville Convention.

The very act, for the first time in our history, rendered possible the election of a Republican governor. Did it not? And will not the same thing be repeated? The writer has observed that since the year 1861 the Republican party has been notorious for its big fat jobs, and the Democratic party, since the year 1844, for its big mistakes. Not one of these truths can be controverted by any fair-minded man.

When searching for that fair gem, yeelp honesty, and find it not, go into the camp of either political party, and the very essence will there be found.

URI MELI BE APES, and wherever there is most honey, there you will find the average politician sucking.

Frequently accidents occur in the household, which cause burns, cuts, sprains and bruises. For use in such cases BALLARD'S SNOW LINIMENT has for many years been the constant favorite family remedy. Price, 25c. and 50c.—A. R. Fisher.

He Wasn't Afraid.

Her Papa: You must remember, sir, that my daughter has been used to an atmosphere of refinement. The Young Man: Yes, she told me the other night that the perfume she uses costs \$2.40 an ounce, but I know where I can get a big discount on the same stuff.

La Grippe is again epidemic. Every precaution should be taken to avoid it. In specific cure is One Minute Cough Cure. A. J. Sheperd, Publisher Agricultural Journal and Advertiser, Eden, Mo., says: "No one will be disappointed in using One Minute Cough Cure for La Grippe." Pleasant to take, quick to act.—Short & Haynes.

Back to the Holy Land.

From United States Consul Ryndal at Beirut, the State Department has received valuable information touching the return of Hebrews to the Holy Land. He says that about 40,000 of the 200,000 population in Palestine are Hebrews. Twenty years ago there were only 11,000 Hebrews in the country. In the city of Jerusalem there are 22,000 Hebrews, and the Consul says that the rapid development of Palestine is certain, whether the Hebrews carry out their cherished colonization idea or not.

Mr. S. A. Fackler, Editor of the Micanopy (Fla.) Hustler, with his wife and children, suffered terribly with La Grippe. One Minute Cough Cure was the only remedy that helped them. It acted quickly. Thousands of others use this remedy as a specific for La Grippe, and exhausting after effects.—Short & Haynes.

STEPHENS FORT.

W. C. Blain, of Paterson, was in town Sunday.

Look out for the 14th and valentines to suit your case.

Miss Cons Best is visiting her grandparents at Petrie.

A. R. Miller has just recovered from an attack of the grip.

Mr. Ham, of Louisville Dispatch made a flying trip here Sunday.

The low boat, McDonald, lies crippled just above town for repairs.

A young man, whose name I failed to learn, is with C. C. Lewis at the depot.

Cold waves are quite the order of the day. We had quite a sleet Saturday night.

Mrs. M. Blain has returned from Hot Springs, Arkansas, greatly improved in health.

Mr. Editor you cannot me to say "back slipping" instead of slipping in last week's issue.

Regular service will be held in Baptist church Saturday and Sunday by the pastor, J. Ferrell.

Marion Thomas, husband from Cloverport, has moved his family here and has his shop near the post office.

If those having items of interest would send them in before Monday the writer will be glad to add them to the list.

We have just heard of the death of Mr. Jim Minor that occurred today, which his friends are very sorry to hear.

Mr. Isaac Allstadt, of St. Louis, Mo., is visiting his sister, Mrs. Wm. Pettit, who is yet very weak with a complication of diseases.

Had you heard the news? One of our best citizens who lately developed into "the blackest character in the town."

Oh, yes! What oracles we have in our midst.

Prof. Lewis is trying to secure pupils for a singing school here and wants as many as twenty scholars, which should be easily obtained in town and the near country as he is prepared to teach the higher classes.

Many Anderson Navarro's characteristics of thinking faster than she can write, will apply to several of us, as we think the entire force at the office of our popular BRECKENRIDGE NEWS deserve medals for interpreting the items that come from this pen.

Al, especially Baptists, who are not reading "An Examination of the Jesuit Church Records" and the "Kills Mannerly" by Christian, in December are missing a treat, as a goodly lot of plain facts are being brought forth that will send them as a denomination, and the editor gives a special price for the three numbers which contain the series.

INDEED, IT WOULD BE WELL:

For people to attend strictly to their own individual business.

For Christians to uphold and maintain their dignity as followers of Christ.

For those who pretend to lead people right, to always tell the story straight.

To have a faith and stick to it, and not be carried around by every breeze that blows.

For each household, church and place of business to keep their own doors open and then attack their neighbors.

For preachers to have themselves well insured during the recent ails, as a bystander could see many laughable slips and falls.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling ailment. It is to-day more of than ever. Rheumatism is a blood disease, and Swift's Specific is the only remedy which can reach such deep-seated troubles.

A few years ago I was taken with inflammation Rheumatism, which became so intense that I was for weeks unable to walk. I tried every remedy known to me, but without success. I was then advised to try Swift's Specific. I did so, and in a few days I was able to get the slightest relief. In fact, my condition improved so rapidly that I was able to go to work in a few days. I am now perfectly well, and I can say that Swift's Specific is the only remedy which can reach such deep-seated troubles.

Dr. Bells Cough Syrup cures the most stubborn cough, colds and lung affections. Even incipient consumption has been successfully cured by this marvelous remedy. Sufferers will obtain relief after a few doses.

Why go away from home and spend your money for a horse, when you can get it at home much cheaper. The B. N. College under the control of Prof. Logan and Roberts will give you all your needs along the animal line. Roberts is said to be up-to-date in language.
